<i>Author's biography</i>	xiii
<i>Acknowledgments</i>	xv
<i>Acronyms and abbreviations</i>	xvii
Introduction	1
1 Promoting low-carbon development patterns	8
2 Facing a metropolitan governance challenge	13
3 Understanding rules-in-use as an implementation factor	21
<i>Rules-in-use as underexplored dimension of climate governance arrangements</i>	21
<i>The planning system rules-in-use that govern low-carbon development patterns</i>	23
4 Aligning plans in the Metro Vancouver region	36
<i>Low-carbon development patterns as a legislative priority</i>	36
<i>The regional growth strategy for the Metro Vancouver region</i>	40
<i>Transit implementation decisions: prioritizing and investing in new rapid transit</i>	51
<i>Local decision-making: planning for the urban centers</i>	57
5 Ensuring plan consistency in the Puget Sound region	70
<i>Encouraging low-carbon development patterns as part of growth management in Washington State</i>	70
<i>Regional growth strategy in the Puget Sound region</i>	74
<i>Transit implementation: unilateral transit decisions in a negotiated setting</i>	89
<i>Local decision-making: negotiating the transit alignment</i>	94

6 Nesting plans in the Stuttgart region	105
<i>Nested spatial planning system in Germany</i>	106
<i>Low-carbon development patterns – business as usual in Stuttgart under federal and state laws?</i>	109
<i>Spatial policies in the Stuttgart region to support low-carbon development patterns</i>	114
<i>Implementation of transit expansion</i>	131
<i>Local decision-making: increasing densities along transit corridors</i>	137
7 Reflecting on spatial policies as rules-in-use in regional growth strategies	145
8 Integrating mechanisms support implementation	154
<i>Types of integrating mechanisms based on empirical findings</i>	154
<i>The integrative nature of a Regional Growth Strategy between self-regulation and state-regulation</i>	160
<i>Implementing transit-connected urban centers with and without a binding Regional Growth Strategy</i>	165
<i>The trouble with rezoning around any rapid transit station</i>	168
9 Implementing low-carbon development patterns	172
<i>Findings for urban planning</i>	173
<i>Findings for climate governance</i>	179
<i>Conclusion</i>	184
<i>Bibliography</i>	187
<i>Glossary</i>	221
