Introduction 1

1 **What Are Projective Techniques, Mind Mapping and Sort-Based Methods?** 4
Chapter Summary 4
Introduction 4
Synopsis of Contents 7
Introduction to Projective Techniques 8
History of Projective Techniques 9
Further Background to Projective Techniques 13
Projective Techniques and Psychological Theory 14
Conclusion 18

2 **Projective Techniques** 21
Chapter Summary 21
Introduction 21
The Importance of Context 22

Presenting Projective Techniques 23
Projective Approaches 25
Conclusion 36

3 Sort-Based Methods 38
Chapter Summary 38
Introduction to Sort-Based Approaches 38
Characteristics of Sorting Techniques 39
Opening Phases in Sort Procedures 40
Open Versus Closed Sorting 41
Single Sorts Versus Repeated Sorts 42
Qualitative Sorts Versus Quantitative Sorts 43
Details of Selected Sort Techniques 44
Conclusion 54

4 Mapping Approaches 57
Chapter Summary 57
Introduction 57
Mind Maps 60
Planning Research 61
Collecting Data 61
Analysing Data 64
Other Types of Mind Maps 65
Semantic Maps 65
Mind Maps Pros and Cons 68
Using Maps to Present Information 69
Conclusion 70

5 Developing Your Own Unique Projective or Sort Approach 74
Chapter Summary 74
Introduction 74
Introduction to Developing Projective or Sort Approaches 75

Projective Approaches and Focus Group Research 76
Other Forms of Data Gathering 76
An Example of the Development of a Novel Projective Research Approach 77
Closing Summary of Adapted Technique 81
Conclusion 82

6 The Future of Projective Technique Research 84
Chapter Summary 84
Introduction 84
Critical Social Research 85
Projective Methods in Critical Research 87
Projective Methods as Sensitive Research Approaches 87
Projective Methods With Individuals in Marginalised Communities 88
The Declarative Mapping Approach 88
The Move to Digital Research Methods 93
Conclusion 95

7 Conclusion 100
Chapter Summary 100
Summary of the Book 100
Conclusion 102

Reading List 103
Glossary 105
Index 135
