About the Authors	iii
Preface	xv
Acknowledgments	xix
Introduction	xxi
A Start-Up Definition of Critical Thinking	xxi
An Expanded Conception of Critical Thinking	xxii
How Skilled Are You as a Thinker?	xxiii
Good Thinking Requires Hard Work	xxv
The Roots of Critical Thinking	xxix
Become a Critic of Your Thinking	xxx
Establish New Habits of Thought	xxxii
Develop Confidence in Your Ability to Reason and Figure Things Out	xxxiii
An Overview of the Primary Concepts in Critical Thinking in Diagram Form	xxxvii
Chapter 1 Become A Fairminded Thinker	1
Weak versus Strong Critical Thinking	1
What Does Fairmindedness Require?	5
Intellectual Humility: Strive to Discover the Extent of Your Ignorance	6
Intellectual Courage: Develop the Courage to Challenge Popular Beliefs and Your Own Beliefs	9
Intellectual Empathy: Learn to Enter Opposing Views Empathically	11
Intellectual Integrity: Hold Yourself to the Same Standards to Which You Hold Others	13
Intellectual Perseverance: Refuse to Give Up Easily; Work Your Way through Complexities and Frustration	15
Confidence in Reason: Be Moved by Evidence and Good Reasoning as You Seek the Truth	16
Intellectual Autonomy: Value Independence of Thought	19
Recognize the Interdependence of Intellectual Virtues	21
Conclusion	25
Chapter 2 The First Four Stages of Development: At What Level of Thinking Would You Place Yourself?	27
Stage 1: The Unreflective Thinker	28
Stage 2: The Challenged Thinker	29
Stage 3: The Beginning Thinker	32
Stage 4: The Practicing Thinker	36

A “Game Plan” for Improvement	37
A Game Plan for Devising a Game Plan	37
Integrating Strategies One by One	40
Chapter 3 Self-Understanding In A Complex World	43
Monitor the Egocentrism in Your Thought and Life	44
Make a Commitment to Fairmindedness	45
Recognize the Mind’s Three Distinctive Functions	46
Understand That You Have a Special Relationship to Your Mind	47
Connect Academic Subjects to Your Life and Problems	52
Learn Both Intellectually and Emotionally	52
Be Aware of How the Internet and Other Technologies Pervade and Affect Your Life	54
How the Internet Works: The Big Picture	55
Assess a Given Website Using Critical Thinking Standards	56
Chapter 4 The Parts of Thinking	57
Reasoning Is Everywhere in Human Life	58
Reasoning Has Parts	59
A First Look at the Elements of Thought	61
An Everyday Example: Jack and Jill	65
Analysis of the Example	66
How the Parts of Thinking Fit Together	66
The Relationship between the Elements	67
Critical Thinkers Think to Some Purpose	68
Critical Thinkers Take Command of Concepts	69
Critical Thinkers Assess Information	72
Inert Information	72
Activated Ignorance	73
Activated Knowledge	74
Critical Thinkers Distinguish between Inferences and Assumptions	77
Critical Thinkers Think through Implications	83
Critical Thinkers Think Across Points of View	85
The Point of View of the Critical Thinker	88
Conclusion	88
Chapter 5 Standards For Thinking	89
Take a Deeper Look at Universal Intellectual Standards	91
Clarity	91
Accuracy	92
Precision	94
Relevance	95
Depth	96
Breadth	97

Logic	98
Significance	99
Fairness	99
Sufficiency	101
Bring Together the Elements of Reasoning and the Intellectual Standards	104
Purpose, Goal, or End in View	105
Question at Issue or Problem to Be Solved	106
Point of View or Frame of Reference	108
Information, Data, Experiences	108
Concepts, Theories, Ideas	109
Assumptions	110
Implications and Consequences	110
Inferences	111
Brief Guidelines for Using Intellectual Standards	112
Chapter 6 Ask Questions That Lead to Good Thinking	123
The Importance of Questions in Thinking	123
Questioning Your Questions	124
Dead Questions Reflect Inert Minds	125
Three Categories of Questions	126
Become a Socratic Questioner	130
Focus Your Thinking on the Type of Question Being Asked	132
Focus Your Questions on Universal Intellectual Standards for Thought	134
Focus Your Questions on the Elements of Thought	135
Focus Your Questions on Prior Questions	137
Focus Your Questions on Domains of Thinking	138
Conclusion	141
Chapter 7 Master the Thinking, Master the Content	143
Go Beyond Superficial Memorization to Deep Learning	144
The Relation of Content to Thinking	145
Understand Content through Thinking and Thinking through Content	146
Learning Any Content Entails Figuring Things Out Within the Content	147
All Content Is Organized by Concepts	147
All Content Is Logically Interdependent	148
Think through Your Classes Using Your Knowledge of Thinking	149
A Caution	150
Chapter 8 Discover How the Best Thinkers Learn	153
Twenty Ideas for Improving Your Studies	154
The Logic of a Typical College Class	156
Becoming a Skilled Thinker	157
The Design of a Typical College Class and the Typical College Student	158
Figure Out the Underlying Concept of Your Courses	160

Figure Out the Form of Thinking Essential to Courses or Subjects	162
Think Within the Logic of the Subject	164
The Logic of Six Academic Disciplines	165
The Logic of Biology	165
The Logic of Ecology	166
The Logic of Aerospace Engineering	167
The Logic of Electrical Engineering	168
The Logic of History	169
The Logic of Biochemistry	172
Make the Design of the Course Work for You	183
Sample Course: American History, 1600–1800	183
Reading, Writing, Speaking, Listening, and Thinking	183
Figure Out the Logic of an Article or Essay	185
Figure Out the Logic of a Textbook	187
Criteria for Evaluating an Author’s Reasoning	188
A Test to Repeat in Every Class and Subject	189
Chapter 9 Redefine Grades as Levels of Thinking and Learning	191
Develop Strategies for Self-Assessment	192
Use Profiles to Assess Your Performance	192
Exemplary Students (Grade of A)	193
High-Performing Students (Grade of B)	193
Mixed-Quality Students (Grade of C)	194
Low-Performing Students (Grade of D or F)	194
Apply Student Profiles to Assess Your Performance Within Subjects	195
Exemplary Thinking as a Student of Psychology (Grade of A)	195
High-Performing Thinking as a Student of Psychology (Grade of B)	196
Mixed-Quality Thinking as a Student of Psychology (Grade of C)	197
Low-Performing Thinking as a Student of Psychology (Grade of D or F)	197
Conclusion	199
Chapter 10 Make Decisions and Solve Problems	201
Making Decisions	201
Evaluating Patterns in Decision-Making	202
“Big” Decisions	203
The Logic of Decision-Making	203
Dimensions of Decision-Making	206
The Early Decisions (Two to Eleven Years of Age)	207
Adolescent Decisions (Twelve to Seventeen Years of Age)	208
Solving Problems	210
Becoming an Activist Problem-Solver	210
Evaluating Patterns in Your Problem-Solving	211

“Big” Problems	213
Dimensions of Problem-Solving	213
Avoiding the Pitfalls of Problem-Solving	218
Analyzing Problems Using the Elements of Thought	221
The Art of Problem-Solving	223
Conclusion	225
Chapter 11 Argumentation Theory and Critical Thinking	227
Analyzing and Assessing Arguments—General Guidelines	229
Analyzing the Logic of a Given Argument	233
Evaluating an Author’s Reasoning Within an Argument	234
Chapter 12 Deal with Your Irrational Mind	237
Take Charge of Your Egocentric Nature	242
Understand Egocentric Thinking	244
Understand Egocentrism as a Mind within the Mind	246
Successful Egocentric Thinking	248
Unsuccessful Egocentric Thinking	249
Rational, Reasonable Thinking	251
Two Egocentric Functions	255
Egocentric Pathological Tendencies of the Human Mind	265
Challenge the Egocentric Pathological Tendencies of Your Mind	266
Defense Mechanisms of the Mind	267
The Challenge of Rationality	269
Take Charge of Your Sociocentric Tendencies	269
The Nature of Sociocentrism	270
Primary Forms of Sociocentric Thought	274
Social Stratification	280
Sociocentric Thinking Is Unconscious and Potentially Dangerous	280
Sociocentric Uses of Language	281
Disclose Sociocentric Thinking through Conceptual Analysis	282
Reveal Ideology at Work through Conceptual Analysis	283
Conclusion	284
Chapter 13 Develop as an Ethical Reasoner	285
Why People Are Confused about Ethics	286
The Fundamentals of Ethical Reasoning	288
Ethical Concepts and Principles	289
The Universal Nature of Ethical Principles	292
Distinguishing Ethics from Other Domains of Thinking	294
Understanding Our Native Selfishness	304
Conclusion	307

Chapter 14	How to Detect Media Bias and Political Propaganda	309
Why Critical Thinking Is Essential to Making Sense of the News		309
What Is News?	311	
Political Views in the News: Understanding the Liberal-Minded Person		312
The Logic of the News Media	314	
Political Influences, Advertising, and Group Think	314	
Technological Noise in the News	316	
What We Need the News Media to Do for Us	316	
Current Trends Affecting How We See the News	317	
Key Critical Thinking Questions to Ask When Seeking the News	317	
Realities That Impede Our Ability to Get Objective News	318	
The Problem of Fake News	320	
Social Media Is an Unreliable News Source	321	
Critical Thinking Tools For Understanding Human Reasoning And Media Logic		321
Questioning the Reasoning Embedded in a News Article	322	
Intellectual Standards for Assessing News Articles, Editorials, and Stories		325
Characteristics of the Disciplined Mind That Help Us Detect Bias	325	
Objectivity, Biases, And Underlying Agendas	329	
Democracy and the News Media	330	
Myths That Obscure the Logic of the News Media	331	
Bias and Objectivity in the News Media	331	
How the News Media View Objectivity Today	334	
Forms of Objectivity	335	
The Perception of Bias in the Mainstream	337	
Propaganda and News Story Writing	337	
Protecting the Home Audience from Guilt Feelings	339	
How the News Media Foster Sociocentric Thinking	340	
Become An Astute Media Consumer	342	
How to Obtain Useful Information from Propaganda and Typical News Stories	342	
Steps in Becoming a Critical Consumer of the News	343	
Media Awareness of Media Bias	344	
Sensitivity to Advertisers	345	
Sensitivity to Politicians and the Government	345	
Sensitivity to Powerful Interests	346	
Sensitivity to Their Competitors	347	
The Bias Toward Novelty and Sensationalism	347	
Critical Consumers of the News	349	
Dominant and Dissenting Views: Finding Alternative Sources of Information	350	
Buried, Ignored, or Underreported Stories	351	
Using the Internet in Seeking the News	352	

Additional Alternative News Sources	352
Readings That Help You Become a More Independent Thinker	353
The Future of the News	354
Is It Possible for the News Media to Reform?	354
Is the Emergence of a “Critical Society” Possible?	355
Conclusion	356
Chapter 15 Fallacies: The Art of Mental Trickery and Manipulation	357
Truth and Deception in the Human Mind	358
Three Types of Thinkers	359
Uncritical Persons (Intellectually Unskilled Thinkers)	359
Skilled Manipulators (Weak-Sense Critical Thinkers)	360
Fairminded Critical Persons (Strong-Sense Critical Thinkers)	361
The Concept of Fallacies of Thought	362
Naming Fallacies	362
Mistakes versus Fallacies	363
No Exhaustive List of Fallacies	364
Faulty Generalizations	365
Analyzing Generalizations	367
Post Hoc Generalizations	371
Analogies and Metaphors	371
Forty-Four Foul Ways to Win an Argument	373
Fallacy Detection: Analyzing a Speech from the Past	391
Fallacy Detection: Analyzing a More Current Presidential Speech	395
Fallacy Detection: Analyzing a Speech from a Presidential Candidate	398
Avoid Two Extremes	401
Conclusion	401
Chapter 16 Learning and Using Information Critically and Ethically: Part I, Critique of Disciplines	405
The Ideal of Knowledge Acquisition	405
True Loyalty to a Discipline	406
The Gap Between Fact and Ideal	407
The Ideal Compared to the Real	409
The Ideal of Mathematics	410
Abstract Quantification	410
The Ideal of Science: Physics, Chemistry, Astronomy, Geology, Biology	412
The Ideal of Science: History, Sociology, Anthropology, Economics, Psychology	415
The Social Studies as Taught and Practiced	418
The Ideal of the Arts and Humanities	419
Music, Painting, Sculpture, Architecture, Dance, Literature, Philosophy	419
Conclusion	422

Chapter 17 Learning and Using Information Critically and Ethically: Part II	425
The Method and A Model Case	425
Realistic Understanding	426
Be a Critic, Not a Cynic	428
Recognize the Mental Nature of Knowledge	428
Develop Awareness of the Harm from Misuse of Information	429
Question Academic and “Expert” Information	432
Question the Status of Knowledge in a Field	433
A Model Case: Questioning Psychology and the Mental Health Professions	434
The Milgram Experiment	436
Scientific Studies in Psychology	439
A Dark Side of the Mental Health Professions	439
Legitimizing Deeply Held Social Beliefs	441
Questioning Psychotherapy	446
Learning from Suspect Claims of Psychology and the Mental Health Professions	448
Thinking Psychologically: A Postscript	450
Forms of Thought	450
Chapter 18 Strategic Thinking: Part I	453
Understanding and Using Strategic Thinking	453
Components of Strategic Thinking	456
The Beginnings of Strategic Thinking	456
Key Idea #1: Thoughts, Feelings, and Desires Are Interdependent	457
Key Idea #2: There Is a Logic to This, and You Can Figure It Out	460
Key Idea #3: For Thinking to Be of High Quality, We Must Routinely Assess It	465
Chapter 19 Strategic Thinking: Part II	469
Key Idea #4: Our Native Egocentrism Is a Default Mechanism	469
Key Idea #5: We Must Become Sensitive to the Egocentrism of Those Around Us	473
Key Idea #6: The Mind Tends to Generalize Beyond the Original Experience	475
Key Idea #7: Egocentric Thinking Appears to the Mind as Rational	477
Key Idea #8: The Egocentric Mind Is Automatic in Nature	478
Key Idea #9: We Often Pursue Power through Dominating or Submissive Behavior	480
Key Idea #10: Humans Are Naturally Sociocentric Animals	481
Key Idea #11: Developing Rationality Requires Work	483
Conclusion	484
Chapter 20 Becoming An Advanced Thinker: Our Conclusion	485
Practicing Skilled Thinking	485
Stage 5: Reaching the Advanced Stage of Development	486
Stage 6: Becoming an Accomplished Thinker	488

Qualities of Mind of an Accomplished Thinker	490
The Inner Logic of the Accomplished Thinker	491
The Ideal Thinker	491

Appendices

A A Brief History of The Idea of Critical Thinking	493
B Sample Analysis of The Logic of . . .	501

A Glossary of Critical Thinking Terms and Concepts	511
